

RENEW
Liquid Rewash Destainer

2520

DESCRIPTION

RENEW is specifically designed for the rewash process to remove blood or iron/metal stains from fabric.

RENEW replaces traditional Oxalic Acid powder.

RENEW will also remove any residual alkalis and detergents to considerably lift fabric appearance.

PRODUCT BENEFITS

RENEW is a highly concentrated blend of Oxalic Acid, wetting agents and sequestrants to thoroughly remove and suspend most tenacious soils

RENEW can be automatically dispensed reducing the risks associated with handling Oxalic Acid.

RENEW is very cost effective.

RENEW has greater soil penetration than Oxalic Acid powder.

PHYSICAL PROPERTIES

Appearance.....	Fluid Liquid
Colour.....	Pale straw
Odour	Odourless
Specific Gravity	1.105 ± 0.05
pH (1%).....	2.5

DIRECTIONS FOR USE

LAUNDRY:

Note: only soak items in polypropylene or 316 (or better) stainless steel containers.

Do not use with chlorine or oxygen bleaches.

RENEW is normally used as part of a re-wash program, but may also be used as a pre-wash or re-wash spray for blood and metal soils.

Re-wash to remove iron / blood stains:

RENEW should be used at a rate of 10 - 15 ml per kg dry fabric at 75 - 85°C for 8-15 minutes.

This is followed by 2 high level rinses. Ensure that the rinse water reaches a neutral pH before proceeding with a standard wash formulation.

Cold Pre-wash for delicate fabrics:

Dose **RENEW** at 3 - 5 ml per Kg and wash at ambient temperature for 5 to 8 minutes with minimum agitation. Follow with 2 rinses (or until rinse water is pH neutral) then wash as normal.

Cold Pre-soak for heavily blood soiled items:

Rinse fabric in cold water to void excess blood. Drain. Dose **RENEW** at 2 - 4 ml per Kg of linen (5 - 10ml / litre) and soak at ambient temperature for 20 minutes to 2 hours. Follow with 2 rinses (or until rinse water is pH neutral) then wash as normal.

Pre-wash spray application:

Wear gloves and avoid breathing vapours.

Note: do not use as a spray on coloured items, wool, silk or delicate fibres.

Dilute **RENEW** to 3 - 5 % in water. Spray onto stained area. Allow a contact time of 5 - 10 minutes. Do not allow a longer contact time than 10 minutes. Flush area with water until all **RENEW** has been removed. Wash as normal.

For more specific recommendations, please contact your ORAPI Laundry Specialist.

STORAGE & SAFETY

Two years stored in unopened original packaging in a cool and dry environment and away from high heat or direct sunlight.

Gloves, goggles and protective clothing must be worn. Avoid eye and skin contact. If contact occurs, flood with copious quantities of water.

For further information please refer to the Safety Data Sheet.
