

SANITOR

Homogenized Metal, Porcelain and Tile Cleaner

DESCRIPTION

SANITOR is a smooth, neutral renovating cream, formulated to maintain, deodorize and polish metal, porcelain and tile surfaces.

SANITOR leaves a soil repelling film that protect surfaces and cut the cleaning frequency.

APPLICATIONS

SANITOR is used by hotels, motels, institutions, retail establishments to renovate porcelain, stainless steel, plastic, Formica, chrome, aluminum and brass surfaces.

SANITOR is the ideal solution to clean burnt on oil and grease from induction & vitroceramic cookers without damage.

SANITOR is also used in marinas to brighten chrome work on fittings and to renovate fiberglass hulls.

PRODUCT BENEFITS

- 3 in 1 action : Renovates, Deodorizes and Polishes
- Quickly removes dried-on foods, grease, rust, soap scum, scale and stains, etc.
- Restore dull, grimy chrome, porcelain, and plastic surfaces to original brilliant finish

APPROVALS

SANITOR meets all requirements of the U.S. Department of Agriculture for use in inedible product processing areas and exterior areas of official establishments operating under the Federal Meat, Poultry, Shell Egg Grading and Egg Products Inspection Programs. Original USDA acceptance letter is on file in the home office.

Approved by Agri-Food & Veterinary Authority of Singapore (AVA) for use in poultry slaughterhouses and meat cutting/deboning establishments.

DIRECTIONS

Apply **SANITOR** directly on surface, or apply with a damp sponge or brush. Agitate with soft brush for heavily embedded soil. Light soils are easily removed by rubbing lightly with a sponge or cloth. Surface may be polished with a clean cloth.

NOTE: When using on stainless steel, apply with grain or surface may be scratched. Do not use stiff brush on chrome.

STORAGE & SAFETY

Two years, stored in closed original packaging in a cool and dry environment. Do not take internally.

For further information please refer to the Safety Data Sheet.
