

FAST KLENE SUPER

4912

Alkaline Traffic Film Remover

DESCRIPTION

FAST KLENE SUPER is concentrated detergent, blend of balanced detergents, sequestrants and alkalis, designed for use via pressure cleaning machine for the removal of road traffic films.

FAST KLENE SUPER removes grease and general vehicle soiling from bodywork, chassis and engines

APPLICATIONS

FAST KLENE SUPER is suitable for use on all vehicles and may be used on painted plastic, glass and metal surfaces. Care should be taken however, with highly polished aluminum or alloy surfaces as **FAST KLENE SUPER**, in common with all alkaline products, may etch these materials.

PRODUCT BENEFITS

- Rapid removal of road film, dirt and grease.
- Based on a sophisticated blend of sequestrants and detergents.
- Formulated to prevent paint damaged.
- Contains sequestrants and a corrosion inhibitor
- Does not dull or damage paintwork.
- Washing equipment protected against scaling and corrosion
- Contains sequestrants to prevent water hardness from causing machine scaling

PHYSICAL PROPERTIES

Appearance.....	Mobile liquid
Colour.....	Yellow
Odour.....	Mild odour
Specific Gravity @ 20°C.....	1.056 – 1.066
pH (1% Solution).....	10.7 – 11.3

APPROVALS / CONFORMANCES

DIRECTION FOR USE

Use via hot or cold pressure washing equipment.

FAST KLENE SUPER should be added to the detergent supply system either as supplied or diluted at 1-20 parts of water depending on the degree of soiling. After cleaning, rinse thoroughly with clean water to remove detergent residues.

IMPORTANT:

FAST KLENE SUPER should not be used on newly painted or re-sprayed vehicles unless the paint has been aged according to the manufacturer’s instructions.

STORAGE & SAFETY

Two years, stored in closed original packaging in a cool and dry environment.

For safe operation, gloves and eye shields should be worn when using this product. If swallowed, rinse mouth thoroughly with water. Give plenty of water to drink if conscious. Seek medical advice.

If contact with the eyes; promptly flush affected areas with water for at least 15 minutes. Seek medical attention if symptoms persist.

If contact with the skin; flush affected areas with copious amount of water immediately. Remove contaminated clothing and laundry before reuse. Seek medical attention if effects persist.

For further information please refer to the Material Safety Data Sheet.
