

# REDUCE 4

## SUPER DE-SEIZING

CLEANS - DE-SEIZES - LUBRICATES  
WATER-RESISTANT and ANTI-CORROSIVE

### DESCRIPTION

REDUCE 4 is quick action, super-penetrating de-seizer and rust reducer that provide a phosphate coating.

### APPLICATIONS

REDUCE 4 is particularly suited for loosening assemblies that are very seized: bolts, nuts, screws, threads, waterworks rods, pulleys and mountings requiring usage of an effective de-seizer.

REDUCE 4 then produces a phosphate coating on parts, and lubricates very well over several months.

REDUCE 4 provides perfect resistance to water and effective and long-lasting protection regardless of environmental humidity levels surrounding treated parts.

### PRODUCT BENEFITS

- Works very quickly.
- Wets, penetrates, cleans and lubricates in one single step.
- Enables very difficult de-seizing without damaging threads.
- Provides a water-repellent and phosphate coating.
- Contains no silicone.
- Possesses anti-rust, anti-corrosion (creates a corrosion-inhibitive film) and reinforced anti-wear properties.

### PHYSICAL PROPERTIES

Aspect .....	Transparent liquid
Odour .....	Light
Density at 20°C .....	0.825
Flash point .....	>60°C

### DIRECTIONS

Apply generously to parts to be loosened. Wait for the product to settle between surfaces.  
Release parts.
